Goliath 4WD 92HD Code #553154

Overview: Masport Goliath 4WD 92HD Ride-on mower features a 4WD drive system combined with a low centre of gravity, delivers superior traction, making it perfect in demanding conditions, for example, neglected and rough terrain where traction can be compromised, such as on hills, slopes, undulations, sandy and wet conditions, where other mowers struggle. The Goliath's 92cm (36") brushcutter deck featuring a swing back blade system, will cut and mulch high grass, blackberry, gorse, thistles, and most overgrown and out of control vegetation. The Roll Over Protection System (ROPS) with safety belt, provides the operator with increased safety and peace of mind. A fan assisted hydrostatic transmission oil cooler ensures the oils operating temperature remains cooler, thus improving performance, reducing maintenance costs and extending transmission life. All this versatility, combined with a 24HP Kawasaki engine, makes this one of the top performing lawn tractors available.

Features a genuine Kawasaki 24HP FS730V engine

Heavy duty steel cutting deck is designed to cut and mulch grass so it decomposes quickly

Fan assisted hydrostatic transmission oil cooler

ISO certified Roll Over Protection Structure (ROPS) with seat belt provides the user with additional safety, security and peace of mind

Refined steering system which is easy to turn and resistance free. The steering ball allows the operator to turn quickly and precisely with one hand when required - improving reaction time and control

Foot controlled 4WD hydrostatic drive with on demand differential lock for superior traction

All the operational controls are ergonomically placed so everything is conveniently within a hand or foot touch away

- Cutting Width 920mm (36")
- Cutting Height Range 50mm - 135mm
- Cutting System Single spinle 2 heavy duty flail blades
- Engagement Electric
- Hourly Cutting Performance 7000m²/h
- Transmission Front - Kanzaki KXH 10, Rear - Hydrostatic Tuff Torq K664
- Drive System V-Belt
- Forward Speed 0-9.5km/h Reverse Speed 0-7.5km/h
- Deck Steel
- Deck Type Mulch
