"We say **YES** to solving your problems"

Masport Goliath 4WD Ride-on mowers are perfect for demanding conditions such as neglected and rough terrain where traction can be compromised, for example, hills and slopes, undulations, sandy and wet conditions, where other mowers struggle. They will cut and mulch high grass, brush, thistles, and most overgrown and out of control vegetation.

The 110cm (43") cutting deck does not directly deflect cuttings from the side therefore keeping paths driveways, building, fences and gardens free from cut debris.

Features a genuine U.S.A manufactured Vanguard Briggs & Stratton engine

Heavy duty steel cutting deck is designed to cut and mulch grass so it decomposes quickly

The mulch option helps reduce clean up and returns the re-cut grass as nutrients to your lawn

All the operational controls are ergonomically placed so everything is conveniently within a hand or foot touch away.

Refined steering system which is easy to turn and resistance free. The steering ball allows the operator

to turn quickly and precisely with one hand when required - improving reaction time and control.

Foot controlled 4WD hydrostatic drive with on demand differential lock for superior traction

ISO certified Roll Over Protection Structure (ROPS) with seat belt provides the user with additional safety, security and peace of mind.

- Cutting Width 1100mm (43")
- Cutting Height Range 50mm - 135mm
- Cutting System 6 blades Blade
- Engagement Electric
- Hourly Cutting Performance 7000m²/h
- Transmission Front - Kanzaki KXH 10, Rear - Hydrostatic Tuff Torq K664
- Drive System V-Belt
- Forward Speed 0-9.5km/h Reverse Speed 0-7.5km/h
- Deck Steel
- Deck Type Mulch
